Himex (Blue) is a robust and highly chemical resistant material which can be used in any situation where work involves the clothing being exposed to high mechanical stress, in combination with aggressive chemicals such as chlorinated hydrocarbons, oils, gasoline, benzene, acids, bases or halogens. Himex is a self-extinguishing material.

Umex (Red) is a newly developed material which is ideally suited for use in working conditions where the hazards are known and are subject to control such as acids, bases, ammonia, oils, and chlorine gas. The red color ensures high visibility.
